7. Line of credit:

The Partnership participates with the General Partner and certain of its affiliates in a \$43,654,928 revolving line of credit with a financial institution that includes certain financial covenants. The line of credit expires on June 28, 2004. As of June 30, 2002, borrowings under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ 8,000,000
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	15,000,000
Total borrowings under the acquisition facility	<u>23,000,000</u>
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	-

 Total available under the line of credit	 \$ 43,654,928
Total outstanding balance	<u>(23,000,000)</u>
Remaining availability	<u>\$ 20,654,928</u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The credit agreement includes certain financial covenants applicable to each borrower. The Partnership was in compliance with its covenants as of June 30, 2002.

8. Subsequent event:

In July 2002, the Partnership sold a significant portion of its lease assets prior to the maturity of the initial lease terms. The assets had been on lease to Tarmac America, Inc. and Exxon/Mobil. The information below summarizes the sales transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Capital Resources and Liquidity

During the first half of 2002, the Partnership's primary activity was engaging in equipment leasing activities.

The liquidity of the Partnership will vary in the future, increasing to the extent cash flows from leases exceed expenses, and decreasing as lease assets are acquired, as distributions are made to the limited partners and to the extent expenses exceed cash flows from leases.

As another source of liquidity, the Partnership has contractual obligations with a diversified group of lessees for fixed lease terms at fixed rental amounts. As the initial lease terms expire, the Partnership will re-lease or sell the equipment. The future liquidity beyond the contractual minimum rentals will depend on the General Partner's success in re-leasing or selling the equipment as it comes off lease.

The Partnership participates with the General Partner and certain of its affiliates in a \$43,654,928 revolving line of credit with a financial institution that includes certain financial covenants. The line of credit expires on June 28, 2004. As of June 30, 2002, borrowings under the facility were as follows:

Amount borrowed by the Partnership under the acquisition facility	\$ 8,000,000
Amounts borrowed by affiliated partnerships and limited liability companies under the acquisition facility	15,000,000
Total borrowings under the acquisition facility	23,000,000
Amounts borrowed by the General Partner and its sister corporation under the warehouse facility	-
Total outstanding balance	<u>\$ 23,000,000</u>
Total available under the line of credit	\$ 43,654,928
Total outstanding balance	(23,000,000)
Remaining availability	<u>\$ 20,654,928</u>

Draws on the acquisition facility by any individual borrower are secured only by that borrower's assets, including equipment and related leases. Borrowings on the warehouse facility are recourse jointly to certain of the affiliated partnerships and limited liability companies, the Partnership and the General Partner.

The Partnership anticipates reinvesting a portion of lease payments from assets owned in new leasing transactions. Such reinvestment will occur only after the payment of all obligations, including debt service (both principal and interest), the payment of management and acquisition fees to the General Partner and providing for cash distributions to the Limited Partners.

The Partnership currently has available adequate reserves to meet contingencies, but in the event those reserves were found to be inadequate, the Partnership would likely be in a position to borrow against its current portfolio to meet such requirements. The General Partner envisions no such requirements for operating purposes.

As of June 30, 2002, the Partnership had borrowed \$100,521,405 with a remaining unpaid balance of \$16,708,631. The General Partner expects that aggregate borrowings in the future will not exceed 50% of aggregate equipment cost. In any event, the Agreement of Limited Partnership limits such borrowings to 50% of the total cost of equipment, in aggregate.

No commitments of capital have been or are expected to be made other than for the acquisition of additional equipment. There were no such commitments as of June 30, 2002.

If inflation in the general economy becomes significant, it may affect the Partnership inasmuch as the residual (resale) values and rates on re-leases of the Partnership's leased assets may increase as the costs of similar assets increase. However, the Partnership's revenues from existing leases would not increase, as such rates are generally fixed for the terms of the leases without adjustment for inflation.

If interest rates increase significantly, the lease rates that the Partnership can obtain on future leases will be expected to increase as the cost of capital is a significant factor in the pricing of lease financing. Leases already in place, for the most part, would not be affected by changes in interest rates.

Cash Flows, 2002 vs. 2001:

Six months:

In 2002 and 2001, the Partnership's primary source of cash was rents from operating leases. Cash provided by operations decreased by \$1,352,839 (from \$4,837,043 in 2001 to \$3,484,204 in 2002).

The most significant source of cash from investing activities in 2002 and 2001 was proceeds from sales of lease assets. Cash flows from direct financing leases were not as significant in either period.

In 2002 and 2001, the only source of cash from financing activities was borrowings on the line of credit. Payments of non-recourse debt have decreased as a result of scheduled debt payments over the last year.

Three months:

Operating lease rents were the primary source of cash from operating activities in 2002 and 2001.

As noted above for the six month period, proceeds from asset sales and direct financing lease rents were the only sources of cash from investing activities in 2002 and 2001.

In 2002 and 2001, the only financing source of cash was the amounts borrowed under the line of credit. Debt payments have decreased for the same reasons noted above for the six month periods.

Results of operations

In 2002, operations resulted in net income of \$669,931 (six months) and \$696,381 (three months). In 2001, operations resulted in net income of \$1,505,580 (six months) and \$641,303 (three months). The Partnership's primary source of revenues is from operating leases. This is expected to remain true in future periods. Gains and losses on sales of lease assets are not expected to be consistent from one period to another. Depreciation expense is the single largest expense of the Partnership and is expected to remain so in future periods. Operating lease rents and depreciation expense decreased compared to 2001 due to sales of lease assets over the last year. As Interest expense is related to the borrowings under the line of credit and non-recourse debt and has decreased because of decreased debt balances compared to 2001.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Quaker Coal Company:

On December 31, 1997, Quaker Coal Company, one of the Partnership's lessees, requested a moratorium on lease payments from January through March 1998. No lease payments were made by the lessee through June of 1998, and as a result, the General Partner declared the lease in default. Subsequently, the lessee cured the outstanding payments and eventually satisfied substantially all lease payments due under the lease; however, the General Partner refused to waive the default and insisted on contractual damages. The General Partner filed a suit against the lessee for its contractual damages in the U.S. District Court of Northern California (the "Court"). On June 16, 2000, the lessee filed for protection under Chapter 11 of the U.S. Bankruptcy Code. The amounts of these damages have not been included in the financial statements included in Part II, Item 8.

The Partnership obtained a stipulation for relief from the automatic bankruptcy stay to allow the Court to issue its ruling, and filed a request to participate on the Official Committee of Unsecured Creditors in the bankruptcy proceedings. The Partnership succeeded in securing the return of its equipment, which has been liquidated, netting approximately 17% of the original equipment cost. The Court issued a ruling on March 4, 2001, denying the Partnership's claim for damages. The lessee subsequently filed a claim against the Partnership, for reimbursement of its legal expenses. The General Partner believes the Court's decision is erroneous, as a matter of law, and has filed an appeal of the decision in the U.S. District Court of Appeals.

The lessee filed a plan of reorganization, which has been objected to by several large creditors, including the General Partner.

Upon the termination of the debtor's exclusivity period, competing plans were filed by other creditors to the plan, and voting on the competing plans occurred October 8, 2001. The results of the vote were that American Electric Power's ("AEP") Plan of Reorganization ("AEP Plan") was successful. Under the AEP Plan, the claim of the Partnership has been assigned to a liquidating trustee for resolution and satisfaction from the debtor's estate.

In January 2002, ATEL attended an appellate settlement conference seeking to resolve the outstanding disputed claim. A reserve has been set aside by the liquidating trustee in the amount of \$1.2 million in partial satisfaction of the Partnership's claims and those of its affiliates, although this claim amount remains in dispute. Currently, the likelihood of recovery of amounts above the payment of the lease rent and the liquidation of the equipment already received remains speculative and highly uncertain.

Elkay Mining Company:

On December 17, 1999, Elkay Mining Company, a subsidiary of The Pittston Company, filed a suit for declaratory relief in response to a notice of event of default sent by the Partnership. The dispute surrounds the treatment by the lessee of a defect in the leased equipment, and the lessee's failure to notify that lessor of the defect in the equipment. All lease payments under that lease were made in a timely manner, and the equipment was returned and liquidated by the Partnership for \$112,501.04, which is approximately 6% of the original equipment cost. The Partnership believes that it has suffered damages and loss as a result of actions of the lessee, in the amount of \$773,402, which represents the difference in the proceeds netted from the sale of the equipment and the liquidated damages due under the lease. This matter has been litigated and the parties are awaiting decision from the Court.

The General Partner has filed for arbitration against the guarantor in San Francisco, as mandated by the lease. The General Partner believes that it has a reasonable basis for prevailing with respect to this matter, and will aggressively assert its defense.

Applied Magnetix Corporation:

In January 2000, Applied Magnetix Corporation filed for protection from creditors under Chapter 11 of the U. S. Bankruptcy Code. The Partnership had assets with a total net book value of \$5,113,290 leased to Applied Magnetix Corporation at the bankruptcy filing date. On January 31, 2000, the General Partner was appointed to the Official Committee of Unsecured Creditors and served as the Chairperson of the Committee. Procedures were quickly undertaken for the liquidation of the Partnership's leased equipment, which proceeds resulted in the satisfaction of a portion of the non-recourse debt secured by the equipment. As of November 1, 2000, liquidation of the assets was completed.

The debtor filed a Plan of Reorganization (the "Plan"), which was approved by a vote of the creditors of the debtor in October 2001. The Plan provided that the debtor change its name to "Integrated Micro-Technology", and enter into a new line of business, the manufacture and production of "micro-machines". As part of the Plan the Partnership, along with the other unsecured creditors, receive a proportionate share of their unsecured claims, in the form of ownership shares and warrants in the newly formed business. The success of this new business plan is highly uncertain.

On February 13, 2002, the reorganized Debtor filed a notice of objection to the Funds claim due to duplication and an improper liquidated damages provision, which the Funds intend to dispute.

The Partnership anticipates additional amounts may be recoverable through its equity interests in the reorganized lessee's business, however, any recoveries above the amounts received upon liquidation of the Partnership's equipment are highly uncertain and speculative.
